

DEXT® THERALUXE™ COMPRESSION & GRIP GLOVES

Stay comfortable, active and confident with Dext® TheraLuxe™ Compression & Grip Gloves. Designed to provide targeted compression and enhanced grip, these premium gloves help support hands during everyday activities while maintaining the dexterity needed for work, hobbies and daily living.

The innovative open-fingertip design allows you to easily use touchscreens, keyboards, pens, cutlery and other household items without removing the gloves. A full-palm silicone grip pattern is strategically positioned across key contact areas to improve traction and control when holding objects, opening containers or carrying items.

Made from breathable, moisture-wicking Theraluxe™ fabric, the gloves are comfortable enough for extended wear throughout the day. Flat, stretch-friendly seams help reduce irritation on sensitive skin while providing a smooth, supportive fit. The extended design delivers compression coverage across the hand and wrist, helping provide consistent support where it's needed most.

Features & Benefits

- Targeted compression for comfortable hand and wrist support
- Open-fingertip design maintains dexterity and touchscreen use
- Full-palm silicone grip pattern for enhanced control and confidence
- Breathable, moisture-wicking Theraluxe™ fabric for all-day wear
- Flat seams help minimise irritation and improve comfort
- Durable construction tested for long-lasting performance

Ideal For

- Everyday household activities
- Gardening and hobbies
- Reading, crafting and knitting
- Holding cups, utensils, phones and other daily-use items
